-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-7, drawn to an apparatus for manufacturing a file folder, classified in class 493, subclass 264.
  - II. Claims 8-13, drawn to an apparatus for manufacturing a file folder, classified in class 493, subclass 210.
  - III. Claims 14-25, drawn to an apparatus for manufacturing a file folder, classified in class 493, subclass 264.
  - IV. Claims 26-30, drawn to an apparatus for manufacturing an expansible file folder, classified in class 493, subclass 243.
  - V. Claims 31-36, drawn to machinery for installing an internal divider in a folder assembly, classified in class 493, subclass 264.
  - VI. Claims 37-40, drawn to machinery for installing an internal divider in a folder assembly, classified in class 493, subclass 264.
  - VII. Claims 41-44, drawn to an apparatus for manufacturing a compartmented folder, classified in class 493, subclass 264.
2. The inventions are distinct, each from the other because of the following reasons:

All Inventions I-VII are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as manufacturing a folder with panels with two taping stations. Invention II has separate

utility such as manufacturing a folder with panels with two divider transfer mechanisms. Invention III has separate utility such as manufacturing a folder with panels with a single taping station with a knife. Invention IV has separate utility such as manufacturing a folder with pleats. Invention V has separate utility such as manufacturing a folder with machinery with a plow and two workstations. Invention VI has separate utility such as manufacturing a folder with machinery with three workstations. Invention VII has separate utility such as manufacturing a folder with a single pass type apparatus and multiple workstations. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group IV is not required for any other Group, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

3. A telephone call was made to Richard Multer on 2/01/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 3721

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher R Harmon whose telephone number is (571)272-4461. The examiner can normally be reached on Monday-Thursday from 8-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rinaldi Rada can be reached on (571)272-4467. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
